

# THE \_\_\_\_\_ FAMILY DISASTER PLAN

(Last Name)

Complete the following chart using your county's zone map. If a family member has two different locations for day and night (e.g. work during day, college classes at night) fill out two lines for that family member.

Home Address		Zone	Reception Center	Evacuation Routes

  

Family Member	School Name/Work Location	Zone	Reception Center/ Host Facility	Evacuation Routes

If your family has friends or relatives who live outside the area to be evacuated, you may wish to stay with them during the emergency or plan to reunite there. Indicate in the block below your "personal" destination.

The Family will relocate to:

Name: \_\_\_\_\_  
Address: \_\_\_\_\_  
Telephone: \_\_\_\_\_  
Directions: \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

If the family were asked to shelter-in-place, the \_\_\_\_\_ room would be the best in the house. (It has the fewest windows and doors to the outside and is large enough for all family members.)

The family disaster kit (stored in \_\_\_\_\_) has duct tape and plastic to cover doors and windows and towels to wet and cover door jambs.
